Is your organisation's child sexual abuse and exploitation training up to date? Could you benefit from input on preventing or responding to child sexual abuse?

We provide multi-agency training and consultation services on all aspects of child protection, risk management, sexual offending and child sexual abuse and exploitation prevention.

### Who is it for?

Our training programmes help organisations, professionals, frontline workers, volunteers and others working with children and families further their understanding of child sexual abuse and sexual offending.

Our expertise is widely recognised and we regularly offer training to local authorities, schools, faith communities, Local Safeguarding Children's Boards, fostering and adoption services, health services, police, and many others.

### How will this help?

We cover a range of subject areas, some of which are listed here. However, all our training programmes are adapted to the precise needs of an organisation. We work with you to create a package which ensures your training requirements are met.

Based on experience, research and current practice, our training offers a clear foundation upon which to build your knowledge and skills.

### Why us?

Since 1992, we have pioneered activities to prevent the sexual abuse of children. As a result, we have developed a deep understanding of sexual abuse, sexual offending and how to prevent it. This insight means we are uniquely placed to offer a wide range of expert training on all aspects of child protection and child sexual abuse and exploitation prevention.

We provide a comprehensive range of services, including training packages coupled with specialist case advice and consultancy for professionals, as well as direct work with sexual offenders and their families.

We also provide the Stop it Now! confidential Helpline (0808 1000 900) and the self-help website [www.get-support.stopitnow.org.uk](http://www.get-support.stopitnow.org.uk) - a website hosting information and support for people troubled by their sexual thoughts about children and young people; help to cope with unwanted feelings and urges; and guidance about how to manage problematic behaviour.
